Performance Review

Despite competitive market conditions, the Bank continued to advance its long-term, multi-faceted strategy focusing on all the key areas. For the quarter ended March 31, 2026, the Bank posted a profit before tax of Rs. 2,109 million, while profit after tax for this quarter stood at Rs. 1,013 million, as compared to profit before tax of Rs. 3,403 million and profit after tax of Rs. 1,603 million earned in the corresponding period last year. This decline in comparative profitability was primarily attributable to the lower net interest income and lesser amount of gain on securities earned during the period. Operating expenses remained under control and increased by 8% during the quarter as compared to same period last year.

As a result of strenuous recovery efforts and prudent lending strategy followed by the management, the Bank achieved net reduction in NPLs which reduced from Rs. 12,530 million as of December 31, 2025 to Rs. 12,151 million at the quarter end. Similarly, the Bank achieved net reversal of credit loss allowance (ECL) of Rs. 357 million during the quarter under review which was higher as compared to the net reversal of Rs. 118 million achieved last year in the same period.

The Bank's total assets at the quarter ended increased to Rs. 489,205 million against Rs. 453,300 million as of December 31, 2025. Net advances increased to Rs. 129,368 million at the quarter-end (December 31, 2025: Rs. 126,706 million) while net investments increased to Rs. 312,241 million as compared to Rs. 274,957 million as at December 31, 2025. On the liabilities side, deposits reduced to Rs. 363,536 million at the quarter end (December 31, 2025: Rs. 378,123) while borrowings increased to Rs. 89,515 million as against Rs. 35,698 million as at December 31, 2025.

Continuous work is underway towards implementation of the conversion strategy. At the end of the quarter, the Bank was operating with 254 branches across the country out of which 199 are dedicated Islamic Banking branches. The deposit of Islamic banking operations of the Bank as of March 31, 2026 stood at Rs. 207,155 million thereby reflecting an increase in the proportion of total deposits of the Bank as compared to December 31, 2025.

Update on Subsidiary

On January 19, 2026, the SECP issued certificate of incorporation of the BOK Currency Exchange Company (Pvt.) Limited, a wholly subsidiary of the Bank. In this respect, the Bank has injected an amount of Rs. 1 billion as paid-up capital of the BOK exchange company during the quarter under review. Accordingly, the Bank has separately prepared and presented its first consolidated financial statements for the quarter ended March 31, 2026.

On February 13, 2026, SBP issued "in-principal approval" for operationalization of the BOK Exchange Company. This approval is valid for three months from the date of issuance. Moreover, necessary work by the exchange company is underway to complete the pre-requisites within the stipulated timeframe to the satisfaction of SBP. After completing the requirements, the Exchange Company will apply to SBP to obtain authorization to carry out the foreign exchange business. This strategic initiative of the Bank aims to diversify revenue streams, create operational synergies, and expand business outreach.

Ratings

In June 2025, VIS Credit Rating Company Limited (VIS) upgraded the medium to long term entity rating of the Bank to 'AA-' (Double A Minus) while maintained the short-term rating at 'A1' (Single A One). The medium to long-term rating of 'AA-' denotes high credit quality, with strong protection factors. Outlook on the assigned rating is 'Stable'.

In June 2025, The Pakistan Credit Rating Agency Limited (PACRA) maintained the medium to long term entity rating of the Bank at 'A+' (Single A Plus) and short-term entity rating at 'A-1' (Single A One). Outlook on the assigned rating is 'Stable'.

During the quarter under review, Islamic International Rating Agency ("IIRA") has assigned the 'Shari'a Compliance and Fiduciary Rating' of "SCFR (pk) 1" to Islamic Banking Operations of the Bank on the national scale, which denotes "No material deviations from national regulatory framework for Shari'ah Compliant Finance" and "SCFR (Global) - High" on the global scale, which denotes, "High level of conformance to global standards in terms of fulfilling fiduciary obligations of Shari'ah compliant Finance".

Future Outlook

The Bank remains vigilant of prevailing economic conditions and will continue to focus on sustaining growth momentum while maintaining strong asset quality and capital discipline. The cornerstone of the Bank's strategy will remain the enhancement of service quality standards and the delivery of state-of-the-art banking services through effective leverage of technology and a well-trained workforce.

Furthermore, the Bank will prioritize increasing advances across all economic segments and also aims to diversify its financing portfolio by targeting high-quality private sector borrowers for fresh loans, with an emphasis on opportunities in ancillary business and trade finance.

Acknowledgment

The Board would like to thank the Provincial Government, State Bank of Pakistan, Shareholders, regulatory authorities and all other stakeholders for their continued trust and support. We are also grateful to our valued customers for their patronage and continued confidence in the Bank.

To account for the transition, the Bank has adopted the modified retrospective approach as allowed under IFRS 9. Accordingly the cumulative impact (net of tax), amounting to Rs. 16.78 million has been recognized as an adjustment in the equity as at January 01, 2026 in these condensed interim unconsolidated financial statements.

4.2 The SBP has directed the Banks through its BPRD Circular Letter No. 1 dated January 22, 2025 to continue the existing revenue recognition methodology for islamic operations, including the requirements of IFAS 1 and IFAS 2 until further instructions. Had the IFRS been adopted in its entirety for revenue recognition from islamic operations, the profit after tax of the Bank would have been higher by Rs. 78.50 million.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The basis for accounting estimates adopted in the preparation of these condensed interim unconsolidated financial statements are the same as that applied in the preparation of the financial statements of the Bank for the year ended December 31, 2025 except for the matters related to IFRS 9 which have been disclosed in note 4.1 to these condensed interim unconsolidated financial statements.

6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the annual financial statements of the Bank for the year ended December 31, 2025.

11.4.3 State Bank of Pakistan (SBP) through BSD Circular No.1 dated October 21, 2011 has allowed benefit of the forced sales value (FSV) of plant & machinery under charge, pledged stocks & mortgaged residential, commercial and industrial properties (land and building only), held as collateral against Non-Performing Loans (NPLs) for a maximum of five years from the date of classification.

The Bank has adopted IFRS 9 with effect from January 1, 2024. In accordance with the SBP's IFRS 9 Application Instructions (together with BPRD Circular Letter No.16 of 2024 dated July 29, 2024), credit loss allowance against NPLs has been taken at higher of the i) provision as required under SBP's Prudential Regulations; or ii) credit loss allowance computed in accordance with the requirements of the Application Instructions. This has effectively reduced the cumulative FSV benefit availed by the Bank as on period end. As at March 31, 2026, the Bank has availed cumulative benefit of forced sales value of Rs. 957.74 million (December 31, 2025: Rs. 936.19 million). Increase in unappropriated profit amounting to Rs. 459.71 million (December 31, 2025: Rs. 440.00 million) is not available for the distribution of cash or stock dividend to shareholders or bonus to employees.

In addition, the Bank makes revocable commitments that do not attract any significant penalty or expense if the facility is unilaterally withdrawn.

24.3 Other contingent liabilities

24.3.1 There are certain claims which have not been acknowledged as debts. These mainly represent counter claims by the borrowers, claims filed by the former employees of the Bank and certain other claims. Based on legal advice and/or internal assessments management is optimistic that the matters will be decided in the Bank's favour and the possibility of any adverse outcome is remote. Accordingly, no provision has been made in these condensed interim financial statements for the same.

24.3.2 The Bank is contesting a case filed by an employee in the Peshawar High Court regarding changes in post retirement benefit plans made by the Bank w.e.f. January 1, 2019. The management based on a legal opinion is of the view that such changes were lawfully made as per Bank's policy and is optimistic about the favourable outcome of the case. Hence, no provision in this respect is recognised in these condensed interim financial statements. Considering the complexity and uncertainty in nature, the financial impact cannot be reasonably ascertained.

36 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified under amortised cost, is based on quoted market price. Quoted securities classified under amortised cost are carried at cost. The fair value of unquoted equity securities, other than investments in associate and subsidiary, is determined on the basis of valuation methodologies. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or in the case of customer loans and deposits, are frequently re-priced.

36.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using inputs that are not based on observable market data (i.e. unobservable inputs).

In the determination of the rates, the MUFAP takes into account the holding pattern of these securities and categorizes these as traded, thinly traded and non-traded securities. However, fair values of investments in unquoted debt securities are valued on the basis of present value technique based on market interest rates.

Valuation techniques and inputs used in determination of fair values within level 3

These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these financial statements.

Features of special pools

Certificates are issued for a fixed period against specific assets allocated to each special pool based on expected rate of return.

Deposits received in this pool are invested in Islamic assets like Ijarah, Diminishing Musharakah, Running Musharakah, Islamic Sukuks and any other Shariah Compliant investment which are duly approved by the Shariah Advisor. Deposits are accepted through all Islamic branches of the Bank.

Deposits in these special pools are accepted with prior approval from the management and are utilized for liquidity management along with some opportunity of investment.

Key features

- Minimum investment is prescribed by the Bank for each special pool.
- Profit payment on monthly basis.
- Profit calculated on daily average balance for the month.
- Investment as deposit and certificate for 1 month, 3 months and 6 months etc.
- Pre-mature termination is allowed without any adjustment for next two months, if sharing ratios and / or weightages are changed during disclosure.

Risks of the special pools

All special pools are created as separate entities which have respective assets and liabilities and income and expense position. In each pool, depositors bear the risk of all direct losses and expenses of the pool. All indirect expenses of the pools are borne by the Bank as Mudarib. Same rate of return is paid to all the depositors in same category.

Profit sharing and weightages for distribution of profit

Assignment of weightage for profit distribution to different types of profit bearing sources of funds is as follows:

While considering weightages emphasis shall be given to the quantum, type and the period of risk assessed by following factors:

- Period of investment (number of months, years)
- Profit payment option (monthly, quarterly, yearly maturity)
- Purpose of deposit (Haji, Umrah etc.)
- Type of customer (pensioners, widows, corporate, individual)

Weightages are declared at least three days before start of each month.

As per the Bank's policy, the Bank's share of profit is distributed to the customers/investors. During the year, the Bank reduced its share of profit by lowering the Mudarabah fee. Out of the distributable income, Rs. 1,400.513 million (45.03% of total distributable income) was charged as Mudarabah fee, and Hiba amounting to Rs. 243.719 million (14.52% of the Mudarib share limit) was distributed during the period.

Charging expenses

Net income is distributed as per SBP instruction, therefore, all pools shall bear their respective identified expenses. A list of lines of direct expenses are maintained duly vetted from Shariah Board of the Bank. Indirect expenses are borne by Mudarib and are not part of distribution.

All credit loss allowance created against non-performing financing and diminution in the value of investment under IFRS 9, prudential regulations and other SBP directives will be borne by the Bank as Mudarib. However, write-offs of financings and loss on sale of investments shall be charged to respective pool along with other direct expenses.

These represent commitments that are irrevocable because they cannot be withdrawn at the discretion of the Bank without the risk of incurring significant penalty or expense. In addition, the Bank makes revocable commitments that do not attract any significant penalty or expense if the facility is unilaterally withdrawn.

24.3 Other contingent liabilities

24.3.1 There are certain claims which have not been acknowledged as debts. These mainly represent counter claims by the borrowers, claims filed by the former employees of the Bank and certain other claims. Based on legal advice and/or internal assessments management is optimistic that the matters will be decided in the Bank's favour and the possibility of any adverse outcome is remote. Accordingly, no provision has been made in these condensed interim financial statements for the same.

24.3.2 The Bank is contesting a case filed by an employee in the Peshawar High Court regarding changes in post retirement benefit plans made by the Bank w.e.f. January 1, 2019. The management based on a legal opinion is of the view that such changes were lawfully made as per Bank's policy and is optimistic about the favourable outcome of the case. Hence, no provision in this respect is recognised in these condensed interim financial statements. Considering the complexity and uncertainty in nature, the financial impact cannot be reasonably ascertained.

36**FAIR VALUE MEASUREMENTS**

The fair value of quoted securities other than those classified under amortised cost, is based on quoted market price. Quoted securities classified under amortised cost are carried at cost. The fair value of unquoted equity securities, other than investments in associates, is determined on the basis of valuation methodologies. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or in the case of customer loans and deposits, are frequently re-priced.

36.1**Fair value of financial assets**

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs that are not based on observable market data (i.e. unobservable inputs).

Un-listed GOP Ijarah Sukuks

Term Finance, Bonds and Sukuk certificates

Investments in debt securities (comprising term finance certificates, bonds, Sukuk certificates and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan. In the determination of the rates, the MUFAP takes into account the holding pattern of these securities and categorizes these as traded, thinly traded and non-traded securities. However, fair values of investments in unquoted debt securities are valued on the basis of present value technique based on market interest rates.

Valuation techniques and inputs used in determination of fair values within level 3

Property & equipment (Leasehold land) and non-banking assets acquired in satisfaction of claims

These assets are revalued on regular basis using professional valuers on the panel of Pakistan Banker's Association. The valuation is based on their assessment of market value of the properties. The market approach used prices and other relevant information generated by market transactions involving identical, comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these financial statements.
